Title: EDIBLE ANIMAL GREETING CARDS

ABSTRACT

The present invention is directed to an edible greeting card (10) suitable for ingestion by a pet which comprises at least one substantially rigid edible panel (12) having at least one message region (24) positioned on the front surface and/or back surface of the panel. At least one edible message (30) is provided within the message region and, in a preferred embodiment, a plurality of messages are provided on the edible panels of the greeting card. The edible message has a plurality of characters, each character being sufficiently large so as to be perceived by the average human. In embodiments utilizing two or more panels (12, 18) edible joining devices (26) are utilized to join the panels. The panels are positioned within the vicinity of the pet so that the pet may view and ingest the panels and edible message.
